

Hi Michael.

Thanks ever so much for the cube results!

I would just like to praise both yourself and Eveready Mix as a business for the handling of our account. Never before in all my years in construction have one of my sites been visited by any management representative of our concrete suppliers during a pour.

Micheal attended the site for close to 3 hours of our first pour at Nelson St and it was a pleasure to have this.

Your drivers were all very accommodating with our needs and I have never had such prompt service from a supplier in the past. Rest assured that going forwards, as long as the material price stays competitive, EverReady Mix will have a customer for life with Property ARC Ltd.

Thanks to all the team.

Regards
Jim
